

Here is a list of all the services that are available at TD with your personal deposit account or other personal banking product ("Account"). You pay a service fee, in addition to any transaction fees and monthly fees that apply unless the services are included with your Account. Some of these services may be available only on a deposit account. Some of these services may also be available on your High Interest TFSA Savings Account and, if so, you pay the service fee. Fees and limits are in the currency of the Account unless noted below.

TD Global Transfer (via EasyWeb Internet Banking and the TD app)

Fees

When you use a TD service in TD Global Transfer to send funds we charge you a transfer fee. The exact amount of the transfer fee is displayed to you prior to fulfilling each transaction so you can review it and consent or decline the transaction.

TD transfer fees
Up to \$25 per transfer. The transfer fee amount is dynamic and will vary depending on several factors including the TD service that is selected, the amount being sent, the recipient country and the currency of the account funding the transaction.

If you are sending funds in a different currency from the currency of your account, you will be purchasing this other currency from us at the exchange rate we set.

Fees are in the currency of the account from which the money is sent. Other banks involved in transferring the money may charge additional fees to the recipient of the funds.

When you use a third-party service in TD Global Transfer to send funds, the exact amount of the third-party transfer fee is displayed to you prior to fulfilling each transaction so you can review it and consent or decline the transaction.

No TD transfer fees
Third party fees apply and depend on vendor's prevailing charges.

Wire payment by visiting a branch

Fees

Send a wire payment to another TD Canada Trust Account:

\$16.00

Fee is in the currency of the Account from which funds are sent.

Send a wire payment to a non-TD Canada Trust account within Canada or internationally:

\$50.00

If you are sending money in a different currency from the currency of your account, you will be purchasing the other currency from us at the exchange rate we set when the payment is made. Other banks involved in transferring the payment may charge additional fees.

Fees are in Canadian dollars or the Canadian dollar equivalent in a foreign currency. Limits are in Canadian dollars or the Canadian dollar equivalent in a foreign currency.

Receive a wire payment:

\$17.50

Fee is in Canadian dollars if funds received are Canadian dollars or a foreign currency other than U.S. dollars. Fee is in U.S. dollars if funds received are U.S. dollars. If the funds received are in a different currency from the currency of your Account, we will be purchasing the other currency from you at the exchange rate we set when the funds are received.

Making a cash withdrawal at a non-TD ATM

In addition to our fees below, most ATM providers charge a fee to use their ATM - the fee is added to the amount you withdraw each time you take money out of your Account.

At non-TD ATMs within Canada:

If you have a TD Unlimited Chequing Account, TD All-Inclusive Banking Plan, TD Wealth Private Banking Account, or if you have \$25,000 or more in your TD High Interest Savings Account at the end of each day in the month:

At non-TD ATMs in USA or Mexico:

At non-TD ATMs in any other foreign country:

If you have a TD All-Inclusive Banking Plan, or TD Wealth Private Banking Account:

In addition to the fees above, if you make a foreign currency withdrawal at an ATM outside Canada with your TD Access Card, the amount of

- the foreign currency funds received at the ATM, and
- any fee charged by the ATM provider

is converted to Canadian dollars at the exchange rate set by Visa International in effect on the date the transaction is posted to your Account. The amount withdrawn from your account will include a fee equal to 3.5% of the amount of the foreign currency funds received at the ATM plus any fee charged by the ATM provider after conversion to Canadian dollars.

For example:

For a US \$10 cash withdrawal at an ATM in the United States, where the rate set by Visa International is 1.3 (US \$1.00 costs CA \$1.30):

Amount received at ATM = US \$10

US ATM provider fee = US \$2

Amount after conversion = US \$12 x 1.3 = CA \$15.60

Fee = CA \$15.60 x 3.5% = CA \$0.55

Total withdrawal amount = CA \$15.60 + CA \$0.55 = CA \$16.15

If this withdrawal example occurred at a non-TD ATM in the United States, the \$3 non-TD ATM fee described above would also be withdrawn from your Account.
