Maintain Your Investment

Preventative scheduled maintenance is an important investment to optimize the performance, reliability, durability, safety and resale value of your Nissan. Scheduling your vehicle's maintenance at the recommended intervals will ensure your vehicle is running at its best.

We want you to enjoy your Nissan vehicle. This Service and Maintenance Guide is designed to help you make sure your vehicle receives proper and timely maintenance that is necessary. Key services are explained in detail, along with an outline of scheduled maintenance to help you maintain your vehicle. Your local Nissan dealer can assist you in determining the best schedule based on your driving habits and local conditions.

Failure to perform scheduled maintenance may result in excluding portions of your vehicle from warranty coverage and may reduce the performance, safety, reliability, durability and/or resale value of your vehicle. See your Warranty Information Booklet and Owner's Manual for details.

WHY NISSAN SERVICE?*

To preserve the quality, reliability and safety of your vehicle, an authorized Nissan dealer is recommended for maintenance or repair. Only an authorized Nissan dealer offers you these advantages:

- Nissan trained and ASE certified technicians
- Immediate access to warranty service history and Nissan technical information
- Latest diagnostic, special tools and service techniques
- Genuine Nissan Parts that meet Nissan's demanding standards
- 12 month/12,000 mile parts and labor limited warranty when Genuine Nissan Parts are installed by your dealer
- Lifetime limited warranty on select replacement parts
- Complimentary Multi-Point Inspections (at participating dealers)
- Clear, up-front estimates
- Time guaranteed Express Services (at participating dealers)
- Over 1,000 locations nationwide
- Shuttle service/Courtesy van (at participating dealers)

Your Nissan dealer is a full-service maintenance and repair center. We recommend using authorized Nissan Service and genuine Nissan Parts that we have designed for their reliability, safety and suitability for your Nissan vehicle. We are committed to providing you with quick, efficient, and competitively priced service and parts.

For All Your Service Needs

EXTENDED SERVICE PLANS*

Security+Plus

EXTENDED PROTECTION PLANS

Did you know you can drive your new Nissan for the next 8 years or 120,000 miles, almost worry-free of unexpected repair costs?

Nissan **Security+Plus** Extended Protection Plans deliver peace of mind by providing component coverage (up to 1,950 components), roadside assistance, and rental car benefits. Additionally, **Security+Plus** plans offer **Nationwide Coverage** (over 1,000 Nissan dealers); use **Genuine Nissan Parts** (new or, in some cases, remanufactured), employ factory-trained technicians, and protect you against the rising cost of parts and labor.

Security+Plus Extended Protection Plans can be purchased any time within your vehicle's original 3-year/36,000-mile new vehicle basic limited warranty period. If your vehicle is already older than those parameters, Pre-Owned vehicle service contracts can be purchased anytime with the 5-year/60,000-mile powertrain limited warranty. Just contact your selling dealer and tell them you'd like to take advantage of one of the best mechanical breakdown plans available for your Nissan today.

EXTENDED SERVICE PLANS*

PREPAID MAINTENANCE PLANS

Security+Plus Prepaid Maintenance Plans maintain your vehicle to factory specifications by factory-trained technicians. Like our Extended Protection Plans, you'll benefit from **Nationwide Coverage and Genuine Nissan Parts** and you'll be protected against the rising costs of parts and labor. **Security+Plus** Prepaid Maintenance Plans offer four service levels, two service intervals and eight time and mileage periods. So, it's easy to find a plan that's right for you. 'New' **Security+Plus** Prepaid Maintenance Plans can be purchased any time within the first 6 months/7,500 miles of the original vehicle sale date, while 'Pre-Owned' **Security+Plus** Prepaid Maintenance Plans may be purchased at any time throughout the life of the vehicle. Just contact your selling dealer and tell them you'd like to take advantage of one of the best maintenance plans available for your Nissan today.

GENUINE NISSAN COLLISION PARTS

If you have an accident, insist on Genuine Nissan Collision Parts. If you want your vehicle to be restored using parts made to Nissan's original exacting specifications – if you want it to last, help to protect your personal safety and to help hold its resale value, the solution is simple. Tell your insurance agent and your repair shop to use only Genuine Nissan Collision Parts.

Many non-genuine parts are copies made from impressions of Nissan parts and may not match the specifications and performance standards of Genuine Nissan Parts. As a result, non-genuine parts may not look or fit right, and may be less safe.

The hood on your vehicle is a good example. Nissan designed it with hood buckling creases to help prevent the hood from penetrating the interior of your vehicle in an accident. Non-genuine parts may not provide such built-in safeguards.

In some states, the law says you must be advised if non-genuine parts are used to repair your vehicle. **Why should you take a chance?**

Replacement Panel Limited Lifetime Corrosion Warranty*

If you have your collision damage repaired using Genuine Nissan Outer Sheet Metal Panels you don't have to worry about corrosion. That's because these panels are warranted against inside out rust-through perforation for as long as you own your Nissan. Another reason to insist on Genuine Nissan Collision Repair Parts.

* This warranty does not apply to vehicles or parts not distributed by Nissan North America and/or sold outside the United States.

DETERMINING THE PROPER MAINTENANCE INTERVAL

As a condition of your vehicle's warranty, you are responsible for properly maintaining your vehicle. In maintaining your vehicle, you should follow either Schedule 1 or Schedule 2 as listed below. Use these guidelines to determine which maintenance schedule to use.

SCHEDULE 1 (more severe operating conditions), every 3,750 miles or 3 months, whichever comes first

Use Schedule 1 if you primarily operate your vehicle under any of these conditions:

- Repeated short trips of less than 5 miles in normal temperatures or less than 10 miles in freezing temperatures
- Stop-and-go traffic in hot weather or low speed driving for long distances
- Driving in dusty conditions or on rough, muddy, or salt-spread roads
- Towing a trailer, or using a camper or car-top carrier

SCHEDULE 2 (less severe operating conditions), every 7,500 miles or 6 months, whichever comes first

Schedule 2 features 7,500-mile service intervals; with Schedule 2 fewer maintenance items are regularly checked or replaced than with Schedule 1.

Generally, Schedule 2 applies only to highway driving in temperate conditions. Use Schedule 2 only if you primarily operate your vehicle under conditions other than those listed in Schedule 1.

PREMIUM MAINTENANCE*

Premium Maintenance is a Nissan recommended optional upgrade that adds services to Schedule 1 and 2 when maintenance is performed.

Performing the Premium upgrade services may optimize the performance, durability, reliability, and resale value of your vehicle. (Premium Maintenance items are available at every 30,000 miles or 24 month interval.)

* Premium Maintenance is a Nissan-recommended option; You need not perform such maintenance in order to maintain the warranties which come with your Nissan. Premium Maintenance may not be available outside the United States, please inquire of your dealer.

- For the ultimate in preventative maintenance, ask your Service Advisor for a complimentary Multi-Point Inspection every time you visit your participating Nissan dealer. See page 12 for more information on Multi-Point Inspections.**

EXPLANATION OF SCHEDULED MAINTENANCE ITEMS

The following descriptions are provided to give you a better understanding of the scheduled maintenance items that should be regularly checked or replaced. The maintenance log indicates at which mileage/time intervals each item requires service.

In addition to scheduled maintenance, your Nissan requires that some items be checked during normal day-to-day operation. You can find these items listed under “General Maintenance” in Chapter 8 of your Owner’s Manual.

Items marked with “**” are recommended by Nissan for reliable vehicle operation. You are not required to perform maintenance on these items in order to maintain the warranties which come with your Nissan. Other maintenance items and intervals are required.

When applicable, additional information can be found in the “Maintenance and do-it-yourself” section in Chapter 8 of your Owner’s Manual.

NOTE: Nissan does not advocate the use of non-OEM approved aftermarket flushing systems and strongly advises against performing these services on a Nissan product. Many of the aftermarket flushing systems use non-OEM approved chemicals or solvents, the use of which has not been validated by Nissan.

For recommended fuel, lubricants, fluids, grease, and refrigerant, refer to Chapter 9 in your Owner’s Manual.

Emission Control System Maintenance:

Drive Belts*

Check engine drive belts for wear, fraying or cracking and for proper tension. Replace any damaged drive belts.

Engine Air Filter

Replace at specified intervals. When driving for prolonged periods in dusty conditions, check/replace the filter more frequently.

Engine Coolant*

Replace coolant at the specified interval. When adding or replacing coolant, be sure to use only Genuine Nissan Long Life Antifreeze/Coolant (Blue) or equivalent with the proper mixture. (Refer to the Owner’s Manual to determine the proper mixture for your area.) The recommended service interval of the factory-fill coolant is 105,000 miles (168,000 km) or 7 years, whichever comes first. Subsequent replacement of Genuine Nissan Long Life Antifreeze/Coolant (Blue) should occur every 75,000 miles (120,000 km) or 5 years whichever comes first.

EXPLANATION OF SCHEDULED MAINTENANCE ITEMS

NOTE: Mixing any other type of coolant or the use of non-distilled water will reduce the recommended service interval of the coolant.

Engine Oil and Oil Filter

Replace engine oil and oil filter at the specified intervals. For recommended oil grade and viscosity refer to Chapter 9 in your Owner's Manual.

Engine Valve Clearance*

Inspect only if valve noise increases. Adjust valve clearance if necessary.

Evaporative Emissions Control Vapor Lines*

Check vapor lines for leaks or looseness. Tighten connections or replace parts as necessary.

Fuel Filter

Maintenance-free item (in-tank type filter).

Fuel Lines*

Check the fuel hoses, piping and connections for leaks, looseness, or

deterioration. Tighten connections or replace parts as necessary.

Spark Plugs

Replace at specified intervals. Install new plugs of the same type as originally equipped.

Chassis and Body Maintenance:

Brake Lines and Cables

Visually inspect for proper installation. Check for chafing, cracks, deterioration, and signs of leaking. Replace any deteriorated or damaged parts immediately.

Brake Pads, Rotors, Drums, & Linings

Check for wear, deterioration and fluid leaks. Replace any deteriorated or damaged parts immediately.

Exhaust System

Visually inspect the exhaust pipes, muffler and hangers for leaks, cracks,

deterioration, and damage. Tighten connections or replace parts as necessary.

In-Cabin Microfilter

Standard equipment on cube, Murano, Altima, Altima Coupe, Armada Platinum, Pathfinder, Frontier LE and Pro-4X Off-Road, Maxima, Titan Crew Cab LE, Quest, Rogue, Sentra, Versa Hatchback and Xterra (except X).

Optional accessory on some models. Replace at specified intervals. When driving for prolonged periods in dusty conditions, replace the filter more frequently.

Propeller Shaft(s)

Check for damage, looseness, and grease leakage. (4WD/AWD/RWD).

EXPLANATION OF SCHEDULED MAINTENANCE ITEMS

Steering Gear and Linkage, Axle and Suspension Parts, Drive Shaft Boots

Check for damage, looseness, and leakage of oil or grease. Under severe driving conditions, inspect more frequently.

Tire Rotation

Tires should be rotated every 7,500 miles according to the instructions in the Owner's Manual (except all 370Z). When rotating tires, check for damage and uneven wear. Replace if necessary.

Transmission Fluid/Oil, Differential Oil, Transfer Case Oil

Visually inspect for signs of leakage at specified intervals.

If towing a trailer, using a camper or car-top carrier, or driving on rough or muddy roads:

- replace the fluid/oil every 30,000 miles or 24 months.

- For vehicles with a CVT transmission (cube, Murano, Altima, Altima Coupe, Maxima, Rogue, NV200, Sentra and Versa), replace the fluid every 60,000 miles or request the dealer to inspect the fluid deterioration data using a Consult. If the deterioration data is more than 210000, replace the CVT fluid.

Automatic transmission fluid for 370Z and NV 1500/2500/3500 is maintenance-free.

Off-Road Maintenance

Check the following items frequently whenever you drive off-road through deep sand, mud or water:

- Brake pads and rotors
- Brake linings and drums
- Brake lines and hoses
- Differential, transmission and transfer case oil
- Steering linkage

- Propeller shaft(s) and front drive shafts
- Engine air filter
- Clutch housing drain (4WD only)

MAINTENANCE SCHEDULE

The following Maintenance Schedule has been compiled by Nissan to assist you in performing the recommended maintenance services and keeping appropriate records of services performed. Along with the related repair invoices, receipts, and other such records, a properly documented maintenance history could enhance the value of your vehicle should you ever wish to sell it. The services listed represent the minimal Nissan recommended requirements for each time/mileage interval, up to 120,000 miles / 96 months. Beginning on page 54 you will find a log that should be used to track when and where services were performed. Ask your Service Advisor to update your log each time your vehicle is serviced.

COMPLIMENTARY MULTI-POINT INSPECTION*

For the ultimate in preventative maintenance, ask your Service Advisor for a complimentary Multi-Point Inspection every time you visit your participating Nissan dealer.

MPI's are performed by Nissan factory trained Technicians who will provide you with a detailed report of your vehicle's condition.

Driving your Nissan should be as worry-free an experience as possible. Trust your Nissan dealership to inspect and maintain your vehicle so you can take pride in knowing your vehicle is ready for the road ahead.

GENUINE NISSAN PARTS YOU CAN RELY ON

In-Cabin Microfilter

The In-Cabin Microfilter filters the air you breathe in your vehicle. This system filters both outside and recirculated air used by the air conditioning system in your vehicle. Replacing the Microfilter every year or 15,000 miles is the best way to help prevent road dust, pollen and other air pollutants from entering the interior of your vehicle and the air you breathe. If your vehicle is not equipped with an In-Cabin Microfilter system – see your Nissan dealer about getting one installed – you'll breathe easier.

Your Nissan Dealer is Your Complete Source for Tires

- Original Equipment Tires and Other Major Brands
- Competitive Pricing
- Road Hazard Protection Included With Each Tire**
- Convenience
- Factory Trained Technicians

Tires are an important component of your Nissan driving experience. They provide the four points of contact between your vehicle and the road and affect acceleration, braking, cornering, load-carrying capacity, and overall handling and performance.

Nissan engineers perform extensive tests to help determine which tires are best suited for use on Nissan vehicles. Replacing the tires on your Nissan with those that meet the Original Equipment specifications will help maximize your vehicle's handling, comfort and safety.
